OBJECTIVES

Full Stack Developer and Freelance Web Developer with hands-on experience in building responsive and scalable web applications using MERN Stack, Firebase, React.js, Node.js, MongoDB, HTML, CSS, and JavaScript. Passionate about creating modern UI/UX, authentication systems, dashboards, and business management solutions with strong problem-solving abilities and a focus on delivering high-quality digital experiences.

TECHNICAL SKILLS

Frontend: React.js, Bootstrap 5, Tailwind CSS, HTML5, CSS3, JavaScript (ES6), AngularJS

Backend: Node.js, Express.js, ASP.NET MVC, Django, PHP

Database: MongoDB, Firebase-Firestore, SQL Server, SQLite, Oracle

Tools & Technologies: Git & GitHub, REST APIs, JWT Authentication, Firebase, VS Code, Canva

EXPERIENCE

Web Development Intern — Stark Technologies (January 2026 – Present)

- Worked on frontend and backend web application development.
- Developed responsive interfaces using React.js, Bootstrap, HTML, CSS, and JavaScript.
- Assisted in API integration, authentication systems, and Firestore database connectivity.
- Improved application performance and UI/UX experience.

PROJECTS

MediSync – Hospital Management System

- Developed a complete MERN Stack Hospital Management System with Admin, Doctor, and Patient modules including appointment booking, dashboard analytics, prescription management, and authentication.

TailorX – Tailor Shop Management System

- Built a role-based tailoring management platform with measurement tracking, order management, responsive dashboards, filtering, and reporting features.

Book Management System

- Created a role-based book management application using MongoDB, Express.js, AngularJS, and Node.js with authentication and CRUD functionality.

Visible India – Tours & Travel Management System

- Developed an online travel package booking and enquiry management system using PHP, MySQL, HTML, CSS, and JavaScript

EDUCATION

Charotar University of Science and Technology (CHARUSAT)

Master of Computer Applications (MCA)

July 2024 – July 2026 | 7.69 CGPA

Charotar University of Science and Technology (CHARUSAT)

Bachelor of Computer Applications (BCA)

July 2021 – April 2024 | 7.74 CGPA

FREELANCE SERVICES

- Full Stack Web Application Development
- MERN Stack Based Project Development
- Responsive and Modern Website Design
- Admin Dashboard & Management Systems
- CRUD Operations and Database Integration
- Firebase & MongoDB Implementation
- Authentication and Role-Based Systems
- Modern UI/UX Design Enhancement

STRENGTHS

- Strong problem-solving and analytical skills
- Modern UI/UX development and design understanding
- Ability to manage complete project development lifecycle
- Quick learner with adaptable and creative mindset
- Good communication and teamwork abilities
- Ability to work independently and meet deadlines
